

Activity Sheet..... 7

Topic: Estuary Management - Maintaining Ecological Balance

Name: _____

Research Project - Community Survey

The Office of the Lake Macquarie & Catchment Coordinator carries out an annual survey to measure community awareness and perceptions in relation to the environment in Lake Macquarie. The official reports of both 2000 and 2001, are available on the Living Lake Macquarie web site - www.livinglakemacquarie.org

- Students are to conduct face-to-face or telephone surveys on five family members or friends and write a summary report.
- List below some questions that you might be able to be used in the survey:
